

METU Department of Economics
ECON204 Macroeconomic Theory II – Section 1 (Ebru Voyvoda)
Spring 2024-25

Assignment 0

(Due on 16th March 2025, 23:50)

This assignment demands that you find a consistent data source (OECD, World Bank World Development Indicators, Eurostat etc.) that will assist you in calculating different sector's value added (contribution to GDP, in percentages).

Alongside Türkiye, select a set of countries (at least 2 countries) to compare the sectoral value added to GDP shares for a selected year (2022?. 2023?).

- a. Write a comment on why you choose the country set to compare Turkey to.
- b. Make sure you provide the link that you have downloaded to data of. Indicate the nature of your data and the sectoral decomposition (Year, current/constant prices etc.). Your data has to at least cover Agriculture, Industry and Services sectors to add up to the GDP of the year of your selection.
- c. Write a ½ A4 page comment.
